

Observer's Guide
"Usability Evaluation of Web-based Application"
Coordinators: Danilo Silva 113384, Francisco Pinto 113763, Tomás Fernandes 112981

STEP	ACTION	COMPLETED?
1	Introduce the main aspects of what will be performed to the participant. Mention that the application is under evaluation not the participant	<input type="radio"/>
2	Give the Informed Consent to the participant and answer any question. Only proceed after the informed consent has been signed	<input type="radio"/>
3	Direct the participant to the list of tasks	<input type="radio"/>
4	Get ready with the observer script. The participant starts doing the tasks and you take notes on the observer form and only interfere if the participant asks for help.	<input type="radio"/>
5	After the participant finishes the tasks, open the post-task questionnaire and fill it, with the participant, discussing your different points of view regarding each item.	<input type="radio"/>
